ABOUT TISSOT

"INNOVATORS BY TRADITION" IS THE CLAIM TISSOT STICKS TO SINCE ITS BEGINNINGS IN 1853.

Always ahead of its time without forgetting its roots is a philosophy to which Tissot has always adhered, in its products but also in its privileged position of being the Official Timekeeper of major sports events all around the world.

The Brand's DNA stands around two characteristics: an attachment to authentic traditional values and a desire for innovation. The launch of the T-Touch Connect Solar perfectly illustrates this fact. Inspired by the first ever Swiss Made tactile watch – the T-Touch presented in 1999 – the T-Touch Connect Solar stays true to itself: a traditional watch to which some useful connected functions have been added.

Never neglecting details, Tissot wanted this iconic watch to be independent by creating a dial made of solar cells and its own operating system, SWALPS. The groundbreaking innovations that have punctuated the Brand's fabled history have allowed Tissot to be known today as the multispecialist Swiss watch brand, creating timepieces from pocket watches, quartz, automatic, gold, feminine to connected models.

Tissot's wide range of products allows its customers to create memories for every important milestone in life. The entire Tissot team is proud to give its Tissot Ambassadors around the world this opportunity.

INNOVATORS BY TRADITION

1

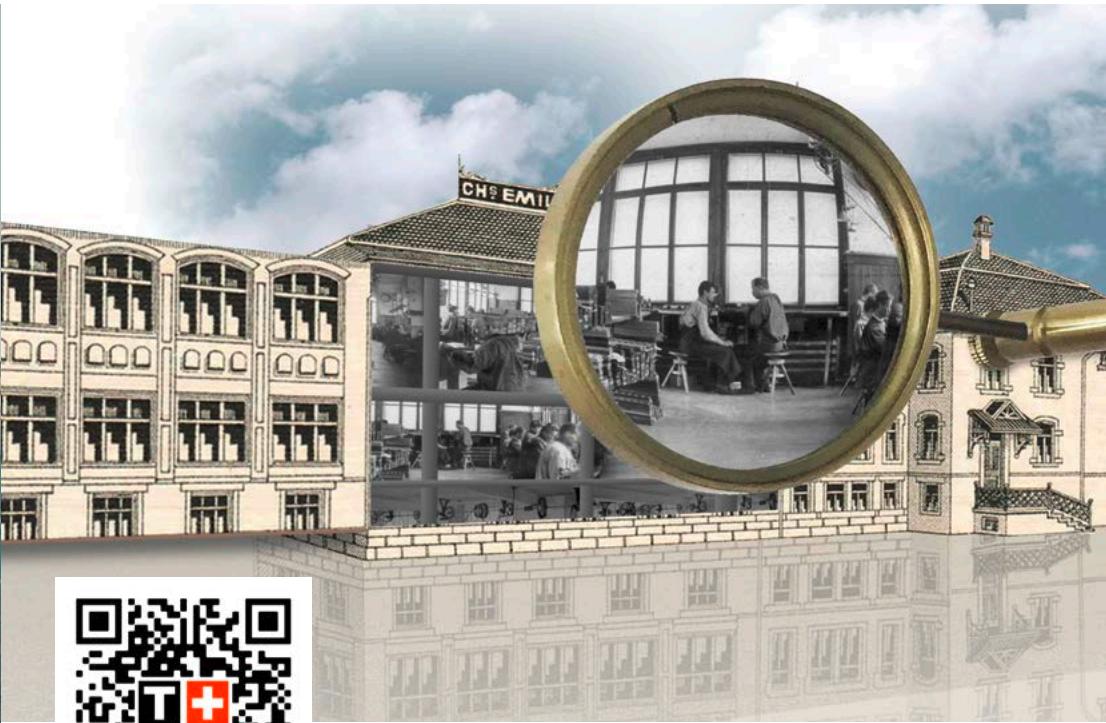

SWISS HERITAGE IS AT THE HEART OF TISSOT AND IS WHAT GIVES THE BRAND ITS REPUTATION.

Tissot's rich history is both an enabler and a driver, and has been since 1853. Ours is a dual legacy. From our birthplace in Le Locle, Switzerland, our company has contributed to – and benefited from – local expertise. It has also instilled the pioneering spirit thanks to which, from the very beginning, we have risen to every challenge and positioned ourselves as innovators and leaders. The spirit of 17, Chemin des Tourelles is with us, now as always.

SWISSNESS

SWISSNESS IS AT THE VERY HEART OF TISSOT.

Tissot has stood for Swissness for more than 160 years - and not just because the brand has always been such an important part of the Swiss watchmaking industry.

SWISSNESS

- 1 Jungfraujoch – Top of Europe
- 2 Berner Oberland, boat on Lake Thun
- 3 Swiss Wrestling, National Sport

It goes without saying that the Swiss Made label is one of our core values alongside tradition, precision and innovation. So it is not surprising that Tissot gladly supports and promotes projects that share its values. Tissot has been involved in Swiss Alpine tourism and Switzerland's mountain scenery for many years through various partnerships. It partners the Swiss Alpine Club (SAC), with whom it shares an allegiance to tradition, as well as the ever-innovative Jungfrau railways. Tissot itself boosted this pursuit of innovation by supporting the First Cliff Walk by Tissot, in Grindelwald. The brand has an equally innovative presence on Glacier 3000, where Tissot has put its name to the world's first suspension bridge linking two summits: Peak Walk by Tissot.

2

Tissot is also visible on Switzerland's lakes, where it has excellent representation through partnerships with the shipping companies on Lakes Neuchâtel, Morat, Biel, Thun, Brienz and Geneva.

Naturally, Tissot is also invested in the Swiss sporting landscape: For example, the brand supports traditional Swiss wrestling through its commitments to regional festivals and the Federal Swiss Wrestling and Alpine Festival. More modern sports also receive the support that they need to develop. Tissot has long been an active supporter of cycling, basketball and ice hockey in Switzerland. The ice hockey stadium in Biel, the Tissot Arena, is named after the brand.

Tissot takes great pride in all of its partnerships. They allow it to outwardly demonstrate its identity and values; tradition, precision, innovation and of course, the Swiss Made Label.

SPORT PARTNERSHIPS

PARTNER TO PRECISION AND EMOTION.

Tissot loves sport. Sport that brings people together, transports crowds, unleashes emotions and unites young and old from all backgrounds. Sport whose values are performance, precision and endless dedication. For almost 100 years, Tissot's story has been told through the eyes of athletes, both amateurs and professionals, and their achievements. Tissot times record-breaking exploits for Basketball, Cycling, Motorcycling, Rugby, Ice Hockey and their protagonists. Its role as official timekeeper demands thousandth-of-a-second precision that leaves no room for doubt. This is why, year after year, Tissot reinvents innovation and redefines standards for judges, athletes, fans – and everyone else, because with Tissot, enthusiasts and professionals alike get to play in the big league.

TISSOT AMBASSADORS

1 ARTHUR CHEN / Actor.

Arthur grew up in China and entered the entertainment world at an early age, performing in his first film "Sacrifice" when he was only 10. Since then, he has won numerous awards as he embraces the challenge of playing characters with different personalities. His aim for new challenges echoes Tissot's claim of being "Innovators by Tradition".

2 HUANG XIAOMING / Actor.

He graduated from the Performance Institute of the Beijing Film Academy in 2000. He then made a name for himself with TV roles from 2001 and began his movie career in 2007. Thanks to his many successes, he has now become one of the most famous actors in China.

3 LIU YIFEI / Actress.

Liu Yifei is a famous Chinese actress who studied at the Performance Institute of the Beijing Film Academy and started her acting career in 2002, when she was only 15 years old. Thanks to her amazing performances and incredible onscreen charm, she quickly gained in popularity. This year, she is starring in the Disney movie Mulan where she is playing the heroine; a female warrior.

TISSOT AMBASSADORS

1

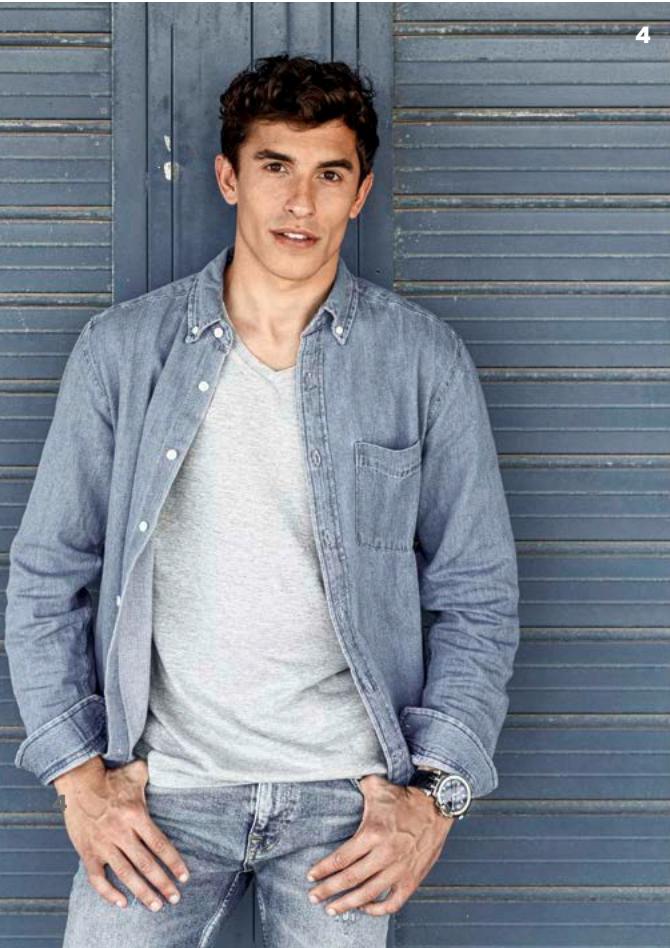

2

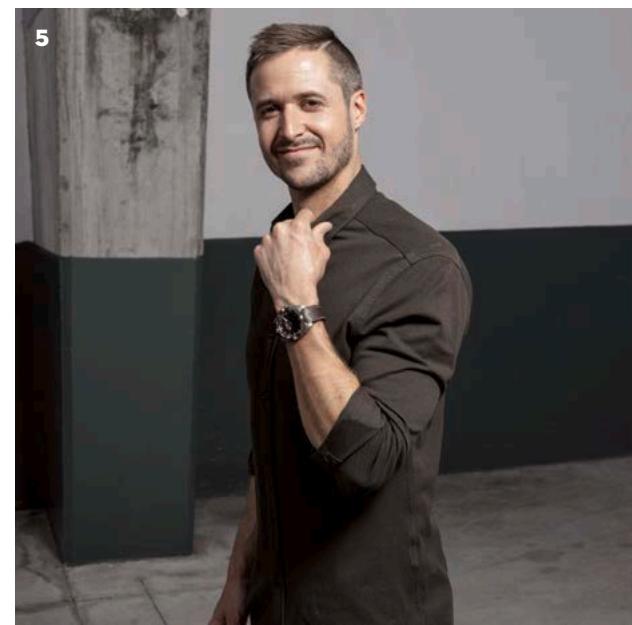

3

TISSOT AMBASSADORS

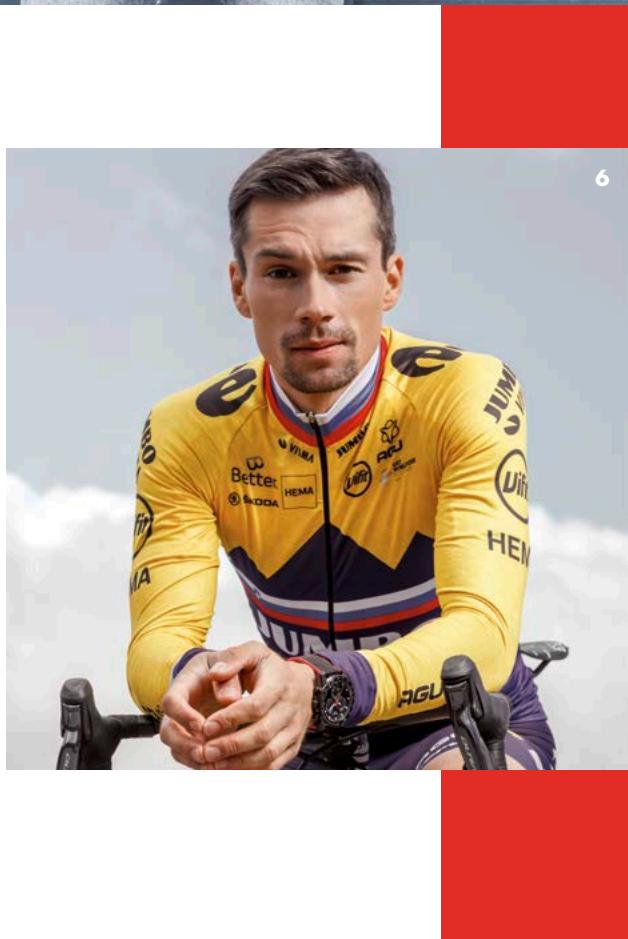

4 MARC MÁRQUEZ / MotoGP™ racer.

Marc Márquez is eight times World Champion in motorcycling. He won six times in the MotoGP™ category in 2013, 2014, 2016, 2017, 2018 and 2019. He became the youngest rider to ever achieve a MotoGP™ World Championship Title after his first season in the top category. He is one of the most popular riders of the circuit.

5 THOMAS LÜTHI / Moto2 racer.

This native of Bern (Switzerland) has speed in his blood, and therefore a special relationship with time that nothing can change. An established figure in the Moto2 category, Thomas Lüthi has accumulated a stunning string of titles and lap records. Today, "team Lüthi" is a community that extends well beyond the bounds of Le Locle.

6 PRIMOŽ ROGLIČ / Cyclist.

Primož Roglič is a cycling champion with a unique career path. Born in former Yugoslavia, he began his sporting career as a ski jumper. In 2011, having won several international titles, he decided to swap his skis for a racing bike. The decision paid off: within a few years, the Slovenian champion had joined the world's elite and won multiple races, including La Vuelta, Liège-Bastogne-Liège and the Tour de Romandie. He has achieved numerous Grand Tour podium finishes and in 2020, was named no.1 road cyclist in the UCI World Ranking.

TISSOT AMBASSADORS

7 TONY PARKER / Basketball player.

Tony Parker is a French basketball player who retired from the NBA in 2019. Parker has helped the Spurs win four NBA championships in 2003, 2005, 2007 and 2014. Employing his pace and high field goal percent- age to great effect, Parker has been named FIBA EuroBasket MVP, FIBA EuroBasket Top Scorer twice and Player of the Year twice and has also taken part in six NBA All-Star games, three All-NBA Second Teams, and an All-NBA Third Team.

8 DAMIAN LILLARD / Basketball player.

Selected by Portland as the sixth overall pick in the 2012 NBA Draft, Lillard then won the NBA Rookie of the Year Award in 2013. Loyal to the Trail Blazers, he has pursued his career with the Oregon team, rising to legendary status. The NBA All-Star Damian Lillard is a once in a generation athlete with his own unique approach to watches. " I like attractive, accessible watches that adapt to every style. That's why I love Tissot."

7

8

9 KLAY THOMPSON / Basketball player.

Klay Thompson is three times NBA Champion and has also claimed Olympic and FIBA World Cup gold medals and an NBA 3-point contest, as well as playing a vital role in the Golden State Warriors' success, helping his team claim three championships in the past five years alone. His skill and impressive efficiency means he is arguably one of the best pure shooters of our generation, and a key member of Golden State's All-Star quartet.

9

TECHNICAL FEATURES

METICULOUSLY DESIGNED, USING ONLY THE HIGHEST QUALITY MATERIALS AND COMPONENTS, ALL TISSOT WATCHES ARE PROTECTED AGAINST SHOCK LOADS, VARIATIONS IN TEMPERATURE, WATER AND DUST.

MOVEMENTS

MECHANICAL MOVEMENTS

A Tissot mechanical movement contains an average of 100 finely manufactured parts. The balance wheel lies at the heart of the movement and ensures its accuracy. With its constant backwards and forwards movement, the balance and the balance spring divides the time into equal portions, thereby accurately regulating the movement of time. The movements of the balance spring, called oscillations, are what causes your watch to "tick". The balance wheel's total oscillations equate to 385,000 turns a day.

In all mechanical watches, the energy of the movement is stored in the so-called mainspring which needs to be tightened every day. When fully tightened, the mainspring will release its energy to the movement's wheels during 40 to 80 hours (depending on the model): this is called the power reserve of the watch.

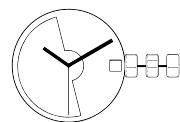

Tissot uses two kinds of mechanical movement: automatic and manual movements.

Manually wound movements: as its name indicates, the power reserve of the watch is manually restored through winding the crown every day. Depending on the model, between 30 to 80 rotations are necessary to completely wind up the energy.

Automatic movements: fitted with an oscillating weight that rotates and tightens the mainspring upon movements of the wearer's wrist, automatic movements do not need to be manually wound every day. However, it is recommended to rewind it through the crown for about 20 turns to ensure the proper functioning of the watch. All our movements are manufactured by the largest manufacturer of Swiss Made movements: ETA, a company of the Swatch Group.

MOVEMENTS

QUARTZ MOVEMENTS

Tissot has always been ahead of its time, and the high quality of its varied and affordable collection of watches with quartz movements is undeniable.

A Tissot Quartz watch contains less parts than a mechanical one, therefore the execution's precision provides valuable results in terms of watch precision. The quartz movement works with two elementary components: a quartz stone (that replace the balance wheel used in mechanical movements) and a battery (instead the mainspring manually/automatically wound). This battery provides electricity that creates vibrations within the quartz stone at the frequency of 32'768 Hz, which corresponds to more than 100 times the mechanical movement's precision.

These vibrations are divided in steps through the copper coil who delivers it by path to the gear train wheels, creating the second hand jump.

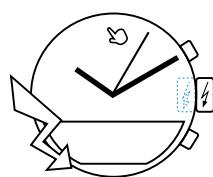

Tissot presents a large variety of quartz movements, starting with the simple three hands to the analogic perpetual calendar. With the Touch Collection, Tissot offers the most complete quartz movement with a maximum of 20 different functions that are useful in every circumstance.

All our movements are manufactured by the largest manufacturer of Swiss Made movements: ETA, a company of the Swatch Group.

MATERIALS

MATERIALS

316L STAINLESS STEEL

For the manufacturing of all accessible components of its steel watches, Tissot has selected a very high quality of stainless steel from the 316L family. The advantages of this steel are its high corrosion resistance and excellent durability.

PVD COATING

The advantages of PVD (physical vapour deposition) are that it deposits a thin but hard layer that is resistant to corrosion, provides a strong adherence, is hypoallergenic and offers many choices of colours.

TITANIUM*

Titanium is a metallic element found in the earth's crust. Titanium is approximately 50% lighter than steel, hypoallergenic because it is nickel-free and 100% recyclable. When exposed to the atmosphere, titanium forms a tenacious oxide film that is resistant to saltwater corrosion.

MOTHER OF-PEARL

Mother-of-pearl is a hard, iridescent inner layer of certain shells, including abalone, pearl oyster and mussel. Mother-of-pearl is mainly composed of calcium carbonate deposited in thin, overlapping layers. In both Eastern and Western cultures, mother-of-pearl has a long history of use in decorative inlays and finished products. Being a natural material that is never exactly identical in its look, Mother-of-pearl is perfect for those who are looking for a unique watch. Thanks to new technologies it is available in colours from snow white to midnight blue.

*TITANIUM GRADE 2

max. Titanium - balance

GOLD

Gold is a chemical element with the symbol Au (from the Latin *aurum*) and illustrated by the atomic number 79. It represents a precious metal which has been extremely sought after and appreciated since the beginning of time in the form of coins or set jewellery. Pure gold is the most malleable and ductile of common metals. It is dense and at the same time tender. After extraction, the pure gold is alloyed with 0.01% lead. In order to give the metal a firmer aspect, the need to create an alloy is inevitable. The carat is a unit of purity for gold alloys (24-carat gold = 100% pure gold). Tissot uses 18-carat gold (75% pure gold) in the manufacturing of its watch cases and bracelets. Depending on the required colour, the alloy changes slightly:

- 18K yellow gold is generally made of 75% gold, 12.5% silver and 12.5% copper;
- 18K rose gold is obtained by adding more copper than silver;
- 18K white gold is obtained by adding more silver (or palladium) than copper.

**SAPPHIRE**

Since the beginning of the 14th century, man has been producing synthetic sapphires and rubies that possess the same chemical and physical properties as the natural stones. Adding a metallic oxide to a synthetic sapphire gives it colour: white (pure aluminium), yellow, blue or green and ruby red.

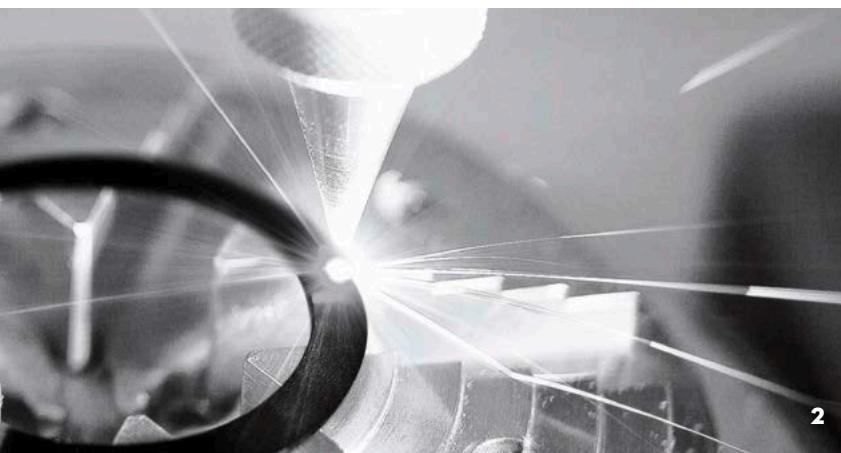

The crystalline structure of the atoms gives the sapphire its hard and transparent properties. Sapphire is the hardest natural element after diamond, enabling it to be scratch-resistant as it is unlikely to come into contact with harder materials. Therefore, it does not age and it possesses a permanent shine which is easily regenerated to its intrinsic splendour with simple cleaning.

MATERIALS

1

2

3

4

1 / DIAMONDS CONFORM TO THE KIMBERLEY PROCESS

Tissot diamonds have been purchased from legitimate sources not involved in funding conflicts and in compliance with United Nations resolutions. Tissot hereby guarantees that these diamonds are conflict-free, based on personal knowledge and/or written guarantees provided by the supplier of our diamonds.

2 / CERAMIC

Ceramic is a non-metallic mineral material that undergoes treatment in a high-temperature environment. Many types of ceramics exist, each with unique properties suited to a variety of applications such as medicine or watchmaking. Ceramic is scratch resistant, anti-allergic and resistant to all types of chemical attacks, high temperatures, friction and abrasion. High-tech ceramic combines a timeless elegance and a refined touch concealing a hardness that is difficult to match.

3 / LEATHER

Since the beginning of the 20th century Tissot offers watches with leather straps. The leather has evolved ever since, going through various skins including lambskin, ostrich, alligator and shark. At times, the finishing has even included somewhat surprising colours and trends such as fuchsia and bright apple green. Nowadays, Tissot uses mainly calf leather and covers the interior part (the part in contact with the wrist) with a hypoallergenic material. The strap makers are self-taught craftsmen who learn how to cut the skins, treat, sew and polish them. Normally, they will fix the lining, sewing it on by hand, before threading and making markings for the sewing. Finally, they will paint the edges, applying up to seven layers to ensure a perfect finish.

4 / NATO STRAP

The NATO strap is a practical and stylish accessory that can effortlessly withstand extreme circumstances while still looking good. The canvas straps have an illustrious history – first used by British pilots and the army in the Second World War, they were toughened up by replacing the typical spring bar attachments with fixed bars fused into place. This meant that only one piece of fabric was needed for the strap, so if one of the bars should break under the pressure of combat, the watch would stay on the wrist as one side would remain attached to the case. This easy functionality adds a new dynamic to the Tissot watches, adding a very desirable aesthetic that's casual, tough and trendy. A straightforward design uses a hardy fabric and stainless steel buckle for a no-frills look, while a range of colours means wearers can choose the colour that best reflects their personality.

MATERIALS

DIVER'S BEZEL

An essential feature of any diver's watch is the rotating bezel, used to measure, or rather, control time. This serrated ring, which is fitted with a graduated scale divided into minutes, allows divers to measure their exact immersion time. It is easy to manipulate, even when wearing thick diving gloves, thanks to its easy-to-grip studs. The bezel's working principle is both simple and reliable. At the beginning of each immersion, the zero on the bezel must be aligned with the minute hand.

A simple glance at the position of the minute hand with respect to the bezel will show the diver at any moment how much time has elapsed since the start of the dive (in minutes).

The unidirectional rotation of the bezel is a safety feature that ensures that any accidental movement of the ring will always be interpreted by the diver as meaning that less time remains than actually does.

TACHYMETRE

The tachymeter measures speed by calculating the distance covered and the time required to cover this distance. The reference distance used is normally one kilometre, and time is measured by the chronograph. The position of the chronograph hand indicates the speed in km/h on the graduated bezel. A kilometre covered in 20 seconds, for example, corresponds to a speed of 180 km/h.

The tachymeter can also be used to measure speeds in miles per hour and knots. In this case, the reference distances used are the mile and the nautical mile, respectively.

QUALITY CONTROL

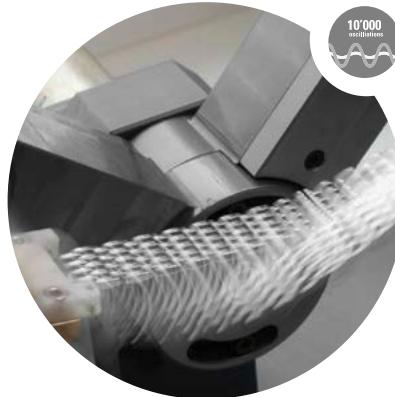

QUALITY CONTROL

THE FOLLOWING TESTS ARE CARRIED OUT ON NEW COMPONENTS TO ENSURE THEIR QUALITY MEET TISSOT'S HIGH STANDARDS.

**PUSH-BUTTON
QUALITY**

Testing the push-buttons by simulating activation: application of 10,000 depressions of each push-button. The functionality and water resistance of the push-buttons is checked after the test.

**OSCILLATING
MOVEMENT**

This tests the bracelet's quality by simulating movement in the form of 10,000 oscillations.

**TENSILE
AND TORSION**

Testing the resistance of bracelets with tensile and torsion tests. The tensile and torsion force is set to a determined value according to the model. The bracelet must complete 10,000 cycles without breaking.

**X-RAY TEST
GOLD**

The relative thickness of all gold components as well as its fineness are tested using an X-ray machine

**X-RAY
TEST**

The components of our watches are made of materials compliant with the most stringent applicable regulations, which restrict the presence of some substances, in particular the European REACH Regulation (EC) 1907/2006.

**LEATHER ABRASION
TEST**

A dry and a damp sponge are applied and rubbed on straps with a pressure of 1 kg in order to check the colour resistance of the leather.

QUALITY IS REVEALED WITHIN DETAILS BUT DETAILS REVEALS THE QUALITY

More than 20,000 new Tissot watches are assembled per day. Our Quality Control department is responsible for attesting the quality and functionality of our products. Among others, the following tests are undergone on all watches:

ESTHETICAL

An esthetical check is done on the final watch to track down any scratches or dust particles.

FUNCTIONALITY

Every function of the watch is controlled: time setting, date jump, chronograph's functions, clasp closing, etc...

RUNNING CONTROL

The running rate on mechanical watches is tested to deliver a precise and adjusted product.

ACCURACY CHECK

The rate of every mechanical Tissot movement is measured with high-tech microphones and has to comply with Tissot standards.

WATER RESISTANCE

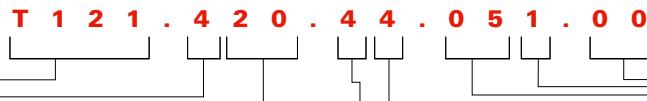

The water-resistance is tested thanks to an over-pressurized device.

PIC SYSTEM

THE PIC SYSTEM ENABLES SALES PROFESSIONALS TO QUICKLY IDENTIFY A TISSOT WATCH AND ITS CHARACTERISTICS SIMPLY BY READING THE WATCH REFERENCE. ALL TISSOT WATCHES CARRY A REFERENCE BASED ON THE PIC SYSTEM.

PICTOGRAMS

MOVEMENTS

 Automatic – an automatic (self-winding) movement is wound by a rotor. Movements of the arm and wrist cause the rotor to move; in turn, the rotor winds the mainspring. No battery is required. Accuracy depends on the manufacture and original timing of the movement and on the body frequency of the person who wears the watch.

 Automatic chronometer – automatic watch with official COSC chronometer certificate (Official Swiss Chronometer Testing Institute).

 Mechanical chronometer – manually wound watch with official COSC chronometer certificate (Official Swiss Chronometer Testing Institute).

 Mechanical (manual winding) – the mainspring of this movement is wound by turning the crown. No battery is required. Accuracy depends on the manufacture and original timing of the movement and on the body frequency of the person who wears the watch.

 Autoquartz with end-of-energy (EOE) indicator – this movement combines the advantages of the automatic movement with those of the quartz movement. The energy is generated mechanically by movements of the arm and wrist. The movement can be recharged by turning the crown.

 Quartz-inquartzmovement, electronically controlled oscillations are transmitted by a specially designed synthetic quartz crystal. The precision of the oscillations is the reason for the high accuracy of quartz movements. Energy is derived from a battery.

 Quartz chronometer – quartz watch with official COSC chronometer certificate (Official Swiss Chronometer Testing Institute).

 Quartz with end-of-life (EOL) indicator – this quartz movement is fitted with an end-of-life (EOL) indicator. When the seconds hand begins to jump by four-second increments, the battery must be replaced within two weeks.

 Solar Quartz – this quartz movement combines the energy generated by the solar cell with the precision of a quartz movement. This watch is fitted with an end-of-life (EOL) indicator.

Water-resistant up to a pressure of 30 bar (300m/1000ft) with screw-down crown and push-buttons

Water-resistant up to a pressure of 60 bar (600m/2000ft) with screw-down crown

SPECIAL FUNCTIONS

Alarm

Indication of different time zones

Multifunction

Limited edition

Bluetooth

All Tissot watches are water-resistant up to a pressure of 3 bar (30m/100ft). A screw-down crown improves water resistance. This applies in particular to watches that are water-resistant at depths in excess of 10 bar (100m/330ft).

The pressures shown on the pictograms are the pressures at which the watches are tested after assembly. A pressure of 3 bar (respectively 5, 10, 20, 30 bar) corresponds to the static overpressure applied to a still watch at a depth of 30 meters (or 50, 100, 200, 300 meters) under water.

Screw-down crowns are better protected against external influences like shocks or radiation. For this reason, we recommend wearing watches with screw-down crowns for all surface water sports and activities.

CRYSTALS

S	Sapphire crystal – scratch-resistant crystal based on high-quality aluminium oxide; up to seven times harder than steel (hardness: 2200–2300 Vickers).
M	Mineral crystal – strong, high-quality mineral crystal (hardness: 500–800 Vickers).
H	Hesalite crystal – plastic crystal which can be subsequently polished (hardness: approximately 500 Vickers).
S	Tactile sapphire crystal – scratch-resistant crystal based on high-quality aluminium oxide with transparent electrodes and antireflective coating.
S NON REFLECTING	Sapphire crystal with one antireflective coating on bottom side of crystal.
S DOUBLE NON REFLECTING	Sapphire crystal with double antireflective coating on top and bottom sides of crystal.
M NON REFLECTING	Mineral crystal with antireflective coating – strong, high-quality mineral crystal (hardness: 500–800 Vickers) with antireflective coating.

	Synthetic strap
	Genuine alligator leather strap

* Alloy characterised by optimum corrosion resistance. The finest grade of 316L stainless steel is used for Tissot watches.

** Tissot uses two different surface-treatment methods for its watches:

PVD (physical vapour deposition): this surface treatment respects the environment and is extremely hard-wearing. A durable coating that is up to five times stronger than traditional coatings (hardness: 1150–1250 Vickers). Galvanic coating: surface treatment applied by electrolysis. With this method, the thickness, nature and number of deposited layers (such as gold, silver, nickel, copper, etc.) can be varied.

*** Titanium is a very light and extremely hard material. It is resistant to extreme temperature variations and is well known for its hypoallergenic properties. Titanium is often used in the aircraft industry and for surgery.

****Alloy of copper and zinc with a very small lead content (hardness: 180–200 Vickers).

CUSTOMER SERVICE

Customer Service is the best way to convert an occasional customer into a loyal lifelong customer. Therefore, when a customer submits a complaint, use this as an opportunity to develop his/her loyalty!

Because properly informing customers about the service of their watch is the key to happy customers, you find herunder useful tips and tricks for Tissot Customer Service operations on your point of sale.

TISSOT CUSTOMER SERVICE CHECKLIST

1

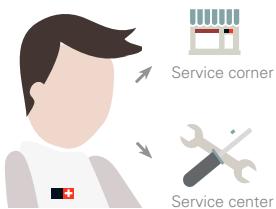

WELCOME AND LISTEN TO THE CUSTOMER

- Warmly welcome the customer, listen to and reassure him or her
- Ask questions to find out what has happened
- Check the validity of the sales or service warranty
- Make sure you always collect the following information on a service note:
 - watch reference number
 - serial number
 - warranty card
 - customer name and contact details including telephone number and email address

2

DIAGNOSTIC

- If you have a watchmaker in your shop, complete a diagnostic of the watch
- Always suggest a new strap if the current one is worn out
- If you do not have a service corner in your shop, send the watch to the local service centre to establish a diagnostic
- Before sending the watch to the service centre, always suggest a new strap if the current one is worn out to refresh the look of the customer's watch

3

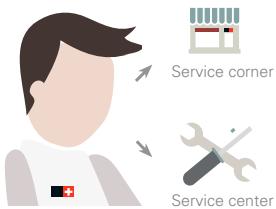

INFORM THE CUSTOMER

- Take time to inform the customer on the service to be carried out and the options available
- Give the customer the brochure "Why should you service your Tissot?", which provides him or her with a lot of information about Tissot services and watch maintenance. It will help you to obtain customer's approval on the estimate.
- Provide the customer with a reasonable time scale for the duration of the service

4

CARRY OUT THE SERVICE

- Track the service progress and ensure the turnaround time is adhered to
- In the event of a delay, inform the customer

5

RETURN THE WATCH TO THE CUSTOMER

- Use the dedicated Customer Service pouch
- Explain to the customer what has been done to the watch
- Give the customer the service warranty (24 months)
- Offer him or her your business card

CUSTOMER SERVICE

THE «WOW!» EFFECT

How can I bring added value?

The «Wow» effect is about exceeding customer expectations in order to reinforce positive experiences. Surprising the customer with small gestures can work miracles. The «Wow» effect is offering the customer something that they will only get from you! It can be something very simple and inexpensive.

A FEW EXAMPLES:

If the customer has to wait, offer him or her a seat and something to drink.

Offer to polish the watch free of charge.

Promise less, provide more! Add a margin to the turnaround time, in order to surprise the customer with a faster turnaround.

Offer a small present: perhaps a Tissot promotional product, free strap replacement, a discount, etc.

In the event of a delay or an unforeseen problem, call the customers to let them know.

Call customers one month after the service to ensure they are satisfied, and above all, to stay in touch.

Personalise your communications, for example by enclosing a personalised note and a business card when providing an estimate.

Create a personal relationship with your customers, by sending them a birthday card or an invitation to a special event or sale for example.

CUSTOMER SERVICE

WHAT TO DO IF ... ?

...the customer is not happy about the service price?

...the accuracy is not optimal?

...the customer is intolerant to a material in the watch?

...the watch has stopped?

...the battery is flat?

...the battery needs replacing during the warranty period?

...there is condensation under the glass?

...I suspect that a watch is counterfeit?

...the hands need synchronising?

...an old Tissot watch need servicing?

...the customer wants an estimation of their old Tissot watch?

...the customer wants information about their old Tissot watch?

...the customer would like to change his or her strap?

...a leather strap is worn out during the warranty period?

...the customer would like another dial?

...the surface coating on the watch is wearing away?

Information is key! Use the brochure "Why should you service your Tissot?" to explain precisely the numerous operations carried out during a service and the complimentary 24 months service warranty.

Average precision on Tissot mechanical watches is +/- 10 seconds per day (except chronometers, which precision is -4/+6 seconds per day). If outside these tolerances, the watch should be examined by a watchmaker, who can adjust the accuracy of mechanical watches.

Change the strap free of charge for the customer (replace it with a strap in a different material, such as titanium) or order a hypoallergenic strap (Tissot HQ).

The watch should be examined by a watchmaker.

For quartz watches, replacing the battery is not always sufficient.

As a precaution, it is better to always offer to restore the water resistance of the watch as well as changing the battery.

Although the battery life is not covered by the warranty, please systematically replace the battery free of charge when the watch is under sales or service warranty.

The watch should be examined by a watchmaker and the water resistance will need to be restored.

Always contact the nearest official service centre for an in-depth analysis.

In the case of a mechanical watch, send the watch to the nearest service centre.

In the case of a quartz watch, reposition the hands using the push buttons as described in the user manual.

Tissot provides a loyalty program for owners of old watches.

Restoration are in some cases possible, but remains costly and requires longer turnaround time.

Tissot does not provide estimation of the current value of old Tissot watches. The customer is invited to get in touch with an auction house or a watchmaking expert.

Our Heritage & Archive department offers an "Extract of Archives" service, which incurs a charge. Visit: www.tissotwatches.com/cs

Use the website www.tissotwatches.com/cs to find out which Tissot straps are interchangeable . XL and XS straps are also available for some watches.

Leather straps are not covered by the warranty. Wear and tear of leather straps depends on the habits of the wearer.If the strap shows premature wear during the first 6 months, a commercial gesture is often appreciated.

In general, it is better to avoid altering Tissot models. Nevertheless, if the reason for the request is related to the readability of the watch, contact the nearest service centre.

Surface coatings (PVD) are sensitive to cosmetic products.

If the watch is still under warranty, contact the local service centre.

CUSTOMER SERVICE

SPARE PARTS AVAILABILITY

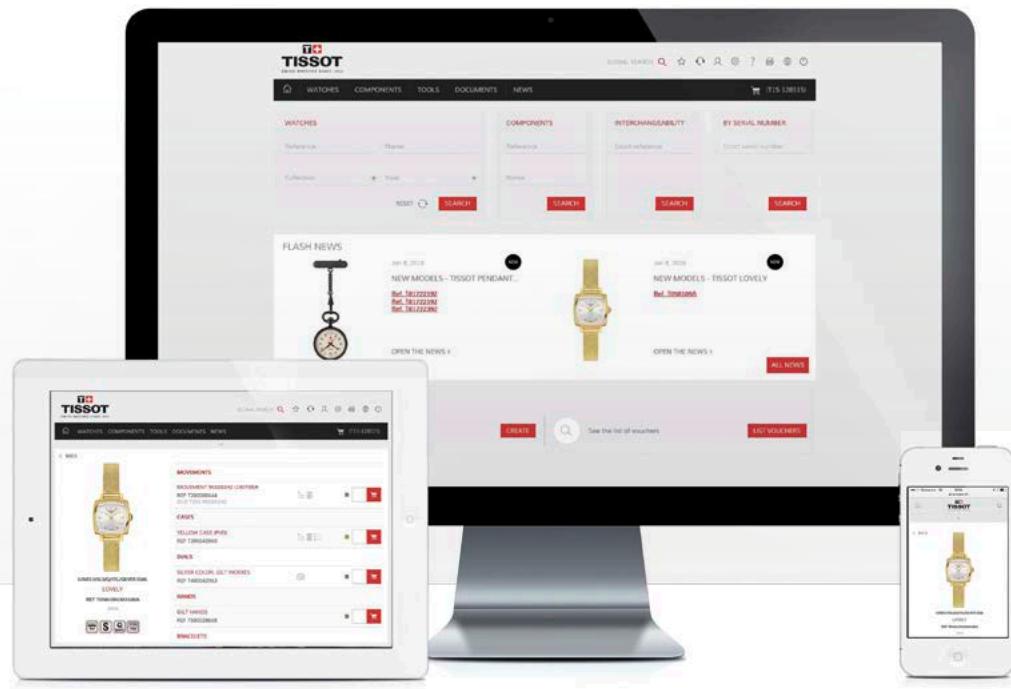

Tissot guarantees that exchange parts will be available for a limited time from the date that production of the watch ends: a minimum of 10 years for standard watches and up to 20

years for gold watches. When it is not possible to service a watch due to a lack of replacement parts, Tissot will offer to exchange an old watch for a more recent model.

BUY TISSOT SPARE PARTS ONLINE

Tissot's Customer Service Extranet is the most convenient way to order official Tissot spare parts throughout the world. Available to all Tissot partners (including Sales) on www.cs.tissot.ch, the Customer Service Extranet is

compatible with the main Internet browsers, smartphones and tablets. Featuring a large database of watches and their spare parts bills of materials, this platform is a must-have tool for all Customer Service activities.

WHERE TO FIND FURTHER INFORMATION?

Customer Service website

The Tissot Customer Service website provides detailed information on the different types of services, maintenance advice, service pricing, warranty terms and conditions, etc.

Visit: <http://www.tissotwatches.com/cs>

Brochure: «Why should you service your Tissot?»

This brochure is ideal for illustrating the different types of services, and provides an overview of all the stages of partial and complete services.

We recommend always providing a copy for your customers along with their estimate.

Tissot CS Guide

This guide is dedicated to helping sales partners worldwide to deal with customer care at the point of sale and provides you with useful tips and tricks for Tissot Customer Service operations on your point of sale.

CUSTOMER SERVICE

TYPE OF SERVICES

- 1. QUICK SERVICES:** bracelet shortening, water-resistance check, etc...
- 2. PARTIAL SERVICES:** battery replacement with restoration of water-resistance and rate adjustments.
- 3. COMPLETE SERVICES:** complete overhaul or exchange of movements with restoration of water-resistance.

Inspection of the rate and the functions

Quality control

Return of your Tissot

TISSOT PARTIAL SERVICE

A partial maintenance service of a Tissot watch includes the following operations:

Diagnostic

Cleaning of the case
and braceletRestoration of the water
resistanceMovement casing and
replacement of the battery
or accumulatorInspection of the water
resistanceCalibration and inspection
of functions

Quality control

Return of your Tissot

SERVICES FREQUENCY

Unlike many mechanical instruments, a Tissot watch operates continuously, 24 hours a day, 365 days a year. To guarantee constant accuracy, the movement's components need to be oiled and perfectly clean. The quality of the oil declines over time, leading to slight friction and deposits, which can affect the watch's precision. That is why Tissot recommends carrying out a service to clean and replace the oil and worn components.

**SERVICES
FREQUENCY:
TISSOT
RECOMMENDATIONS**

Water resistance check:
once a year
Complete service:
every 4-5 years

BRACELET ADJUSTMENT

NECESSARY TOOLS

ALWAYS USE TOOLS IN GOOD CONDITIONS TO MEET TISSOT QUALITY CRITERIA AND AVOID DAMAGING WATCHES.

Bracelet shortening kit
(available on www.cs.tissot.ch):
T871.028.435

Desk blotter
(available on www.cs.tissot.ch):
T871.037.817

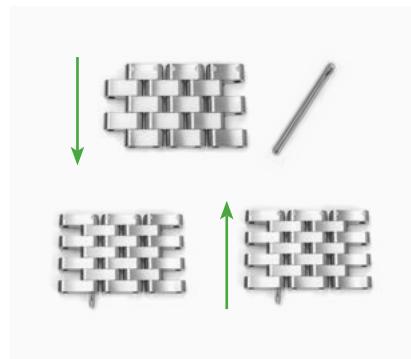

Leather strap plier
(available on www.cs.tissot.ch):
T871.041.786

METAL BRACELET SHORTENING

For the adjustment of the bracelet length, please note the different design systems used for Tissot:

SPLIT PIN

Drive the pin out in the direction of the arrow to remove a link. Insert the pin in the opposite direction with the rounded head last to reassemble it.

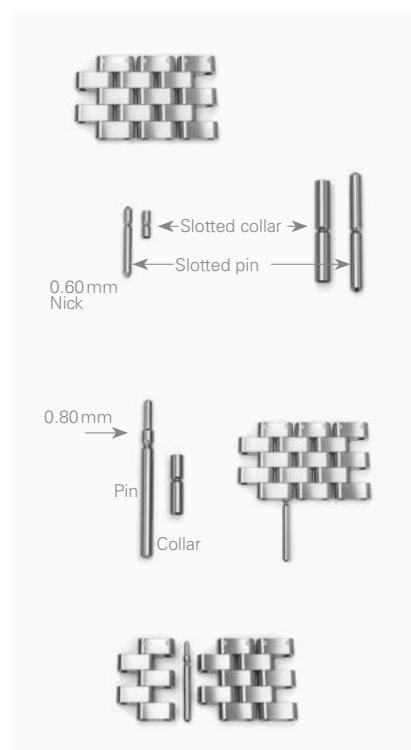

Place the watch on the wrist of your customer to estimate the size and number of links to be removed.

Gently remove the pin from the bracelet with the corresponding tool available in the bracelet shortening kit.

TUBE AND PIN

Drive the pin out in the direction of the arrow to remove a link. After having disassembled the pin, be careful not to lose the tube. Insert the tube in the link before inserting the pin, making sure the pin is in the right direction before assembling.

Gently remove the pin with the plier (if necessary) and make sure to hold it perpendicular to the bracelet to avoid bending the pin.

Follow adjacent instructions on how to remove various types of links. To avoid scratching the link during the assembly, make sure that you properly hold the end-piece on the top of the pin with your finger.

BRACELET ADJUSTMENT

So as to position the buckle in the middle of the bracelet (if possible), make sure to remove links evenly on both sides of the bracelet.

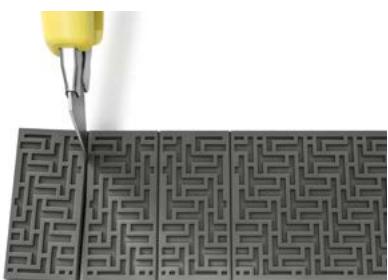

Remove the buckle from the strap using tweezers.

FINE TUNING

Most buckles offer the possibility to finely adjust the length of the strap. Gently move the spring bar on the holes available on the buckle. Make sure that the spring bar is positioned on the same hole on both sides of the buckle.

RUBBER STRAP SHORTENING

Carefully cut the rubber strap with the blade or scissors. Avoid cutting too much, the strap cannot be extended!

Gently insert the spring bar (recovered from the cut part) with the flat part of the tweezer.

It is possible to add holes on leather straps by using a leather strap plier. While shortening a leather strap, make sure to pierce the leather in the continuity of the base: well in the middle of the strap and at equal intervals.

Place the watch on the wrist of your customer to estimate the size and parts of rubber to be removed.

So as to position the buckle in the middle of the bracelet (if possible), make sure to remove links evenly on both sides of the bracelet.

TISSOT TOUCH COLLECTION

**THE LATEST EVOLUTION OF THE GROUNDBREAKING TISSOT
T-TOUCH COLLECTION CEMENTS TISSOT'S STATUS AS
INNOVATORS BY TRADITION. USING SOLAR ENERGY AND
CONNECTED TECHNOLOGY, HERE IS A WATCH THAT IS TRULY

PROFESSIONAL DIVE
WATCH

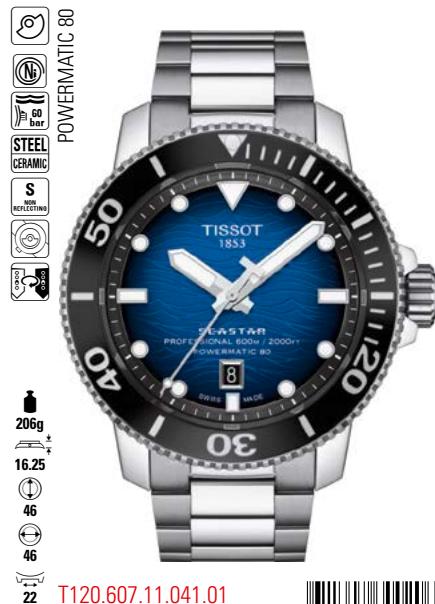

A PROFESSIONAL DIVING WATCH OFFERING EXTREME WATER RESISTANCE

Meeting the standard required for professional dive watches, the Seastar 2000 offers the essential features needed when spending time in the deep. An amazing 60 bar (600m/2000ft) water resistance and integrated automatic helium valve sit alongside a ceramic unidirectional turning safety bezel. The watch further benefits from highly luminescent Super-LumiNova® for improved visibility underwater. It is powered by the innovative Powermatic 80 movement with its impressive extended power reserve and groundbreaking Nivachron balance spring for premium precision.

DESIGNER'S WORD

"The Tissot family of dive watches welcomes a new, advanced, technical version. The Seastar 2000 Professional ticks every box for a high-performance watch and its uncompromising design will suit those who love extreme nautical style."

ROBUST

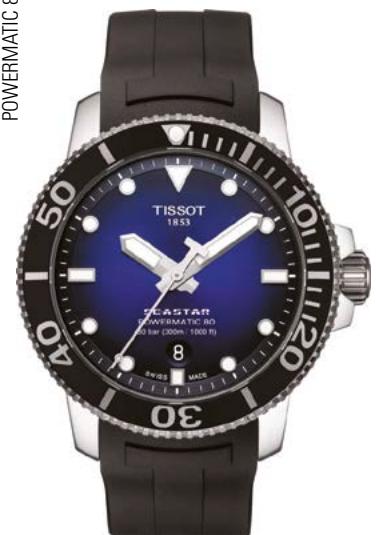

**OUR ULTIMATE, HIGH-PERFORMANCE DIVING WATCH
DRIVEN BY THE POWERMATIC 80 AUTOMATIC MOVEMENT
IS AT HOME UNDERWATER - AND ON DRY LAND**

Readable, reliable, robust: The Tissot Seastar 1000 merges style and performance without compromising either. With water resistance of up to 30 bar (300 m/1000 ft), screw-down crown and case back, it is our ultimate diving watch. The screw-down crown also offers additional protection against knocks. This latest model harnesses the energy of the awesome Powermatic 80 movement with its impressive extended power reserve. This is a high-quality Swiss-made diving watch you can rely on to keep you safe.

DESIGNER'S WORD

"Combining all the elements you'd expect in a dive watch, this is a timepiece you can rely on – on, in or under the water. The Powermatic 80 was the automatic choice of movement for those with a passion for mechanical watches."

TISSOT SEASTAR 1000 QUARTZ

RELIABLE
READABLE
SAFE
ROBUST

OUR ULTIMATE, HIGH-PERFORMANCE DIVING WATCH IS AT HOME UNDERWATER - AND ON DRY LAND

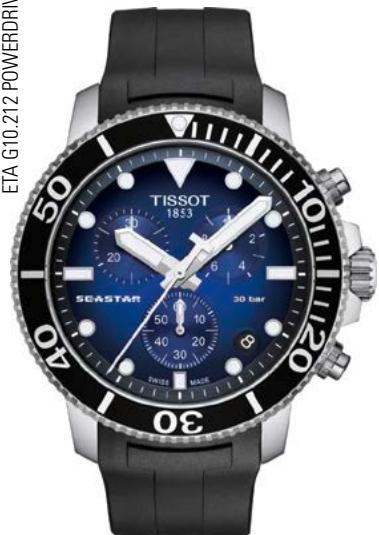

Impressive water-resistance up to a pressure of 30 bar (300 m/1000 ft) is combined with the energy of a Swiss-made quartz movement. With a screw-down crown and case back, unidirectional ceramic safety bezel and Super-LumiNova® ensuring it is readable in the dark, the Seastar 1000 Quartz Chrono is an aquatic ace that truly has it all. The screw-down crown also offers additional protection against knocks.

DESIGNER'S WORD

"Combining all the elements you'd expect in a dive watch, this is a timepiece you can rely on – on, in or under the water. It is specially designed to offer safety at a glance."

TISSOT T-RACE AUTOMATIC

T-SPORT

INSPIRED BY
RACING BIKES
UNIQUE
DISTINCTIVE
AN ASSERTIVE PRESENCE

TAILORED FOR TARMAC, THE T-RACE IS AN EXPERT TIMEKEEPER

The T-Race is packed with both technical and design features that will appeal to motorsports enthusiasts. The quality, Swiss-made automatic chronograph movement is the engine, the bi-material rubber straps offer supreme wearer comfort. The brake disc bezel and brake caliper above the crown as well as the see-through case back inspired by the shape of a motorcycle wheel are the design details that count.

DESIGNER'S WORD

"The T-Race is a perfect combination of look and feel. Many of the design features are inspired by motorbikes but we've paid particular attention to comfort and style. The watch can be adapted to fit any wrist and sits comfortably under a leather jacket and gloves for serious bikers."

**TAILORED FOR TARMAC, THE T-RACE QUARTZ CHRONO IS
AN EXPERT TIMEKEEPER OFFERING THE ULTIMATE ACCURACY
OF A SWISS-MADE QUARTZ MOVEMENT**

Completing the Tissot T-Race collection, the quartz chronograph brings together all the passion and enthusiasm we have for motorsports and translates it to the iconic design features this collection is known for. With a bold and distinct colour scheme, the silicon straps offer comfort as well as style and sapphire crystal provides scratch-resistant dial protection. It's a practical, functional piece inspired by racing bikes.

DESIGNER'S WORD

"The T-Race perfectly demonstrates our aspiration to create a distinctive timepiece with an assertive presence that would suit those looking for something unique. If you're a sporty type with a need for speed, this is the watch for you."

TISSOT PRS 516 AUTOMATIC

PIONEERING
VINTAGE
INSPIRED BY SPORTS
CARS
EXCITING AND
EXHILIRATING

INSPIRED BY SPORTS CARS, DESIGNED FOR LIFE

The PRS 516 was inspired by sports cars and its features reflect its prestigious racing heritage. The sporty A05 automatic chronograph movement is the 'engine' and can be seen through the case back. With 60 hours of power reserve, it's the ideal choice for the 45 mm case. Accents in a range of colours contrast with the black dials and ceramic tachymeter bezels for a powerful, pioneering look. Perforated leather straps are reminiscent of vintage car steering wheels and driving gloves. The ceramic bezel and sapphire crystal offer superior scratch resistance for a watch that will look as good in years to come as it does today.

DESIGNER'S WORD

"The Tissot PRS 516 Automatic is simply the most prestigious sports watch in the Tissot collection. We've underlined the special pioneering character of the watch and kept the vintage look and feel even when using modern design features such as a ceramic bezel. It's a popular choice with pioneers of the track and kings of the road."

PASSION FOR THE NBA IS IN OUR DNA

In basketball, every second counts. What better way to show your support for your team every second of every game than with a precise, Swiss-made, 45 mm chronograph. It's a perfect watch for sports fans who like to watch and play the game. On court or courtside, the subtle team branding and colour contrasting perforated leather straps are guaranteed to get a second glance. This is your time, and this range of Chrono XL watches proves it.

DESIGNER'S WORD

"Tissot has always had strong connections to sport and we're extremely proud to be the Official Timekeeper of the most exciting basketball league in the world: the NBA. The partnership has inspired this range of Chrono XL watches that allows fans to show what their team means to them."

MAKING A MARK WITH A SPORTS WATCH DEDICATED TO A CHAMPION

This limited edition 43 mm quartz chronograph is true to the essence of the Tissot T-Race collection, with features inspired by motorbikes. Each detail has been designed as an exclusive nod to Marc Marquez. His signature ant motif appears on the dial, a sporty, technical strap takes on his racing colours in grey rubber, black leather and red stitching and his famous 93 logo is engraved on the case back. Just 3,993 individually numbered pieces are available, each one presented in a special racing helmet box. Super-LumiNova® inlaid hands and indexes ensure readability at a glance.

DESIGNER'S WORD

"Marc Marquez is a truly unique rider and one that warranted a detailed special edition. His precision, innovation and determination are all reflected in the daring details we've created to honour one of the sport's most popular riders and an impressive young MotoGP™ World Champion."

SPECIAL PACKAGING

A GREAT SWISS TRIBUTE TO A SWISS RACING GREAT

This limited edition 43 mm quartz chronograph is true to the essence of the Tissot T-Race collection, with features inspired by motorbikes. Each detail has been designed specifically to reference Thomas Lüthi and his impressive racing career. The lightning symbol from his logo appears on the chronograph counters; a sporty, technical strap takes on his racing colours in blue and black; and his famous 12 logo is engraved on the case back. Just 1,212 individually numbered pieces are available, each one presented in a special racing helmet box. White Super-LumiNova® inlaid hands and indexes ensure readability at a glance.

DESIGNER'S WORD

"The Tissot T-Race Thomas Lüthi Limited Edition is a fitting tribute to Thomas Lüthi's long and illustrious career. As one of Switzerland's most successful riders, we're proud to have created a watch with design elements that will speak instantly to his army of fans."

OUR ICONIC
PARTNERSHIP. ADDITIONAL
STRAP

DESIGNER'S WORD

"The world's most famous cycling tour is the inspiration for this limited edition. Fans of cycling will immediately recognise the details that make this a must-have for those who love to race – and to watch. Designed for comfort as well as accuracy, it's a dynamic sports watch ready for individual time trials and longer stages alike."

SADDLE UP FOR A SUPERSPORT THAT CELEBRATES OUR CYCLING PARTNERSHIP WITH THE FAMOUS TOUR DE FRANCE.

At 45.5 mm, the Supersport Chrono is an imposing piece. Lightweight aluminium elements make it ready to take on the road. The chronograph counters and luminescent hands and indexes make it easy to check on your timing at a glance and the interchangeable rubber and leather straps guarantee a comfortable fit on the wrist. Yellow accents are a reference to the famous winner's jersey and the case back is engraved with the Tour de France logo. A special box makes this an ideal gift for fans of the world's most famous cycling tour.

**CELEBRATING AN ICONIC CYCLE RACE IN STYLE WITH THIS
SPECIAL EDITION**

This 45 mm quartz chronograph is the perfect timekeeper for the cycle race from Torino to Milano which passes through the beautiful Italian countryside. A sleek black dial is the backdrop for the white luminescent hands and indexes. There is a pink racing bike on the chronograph second hand and pink is also used on the bi-material rubber strap – a nod to the famous pink winner's jersey. A second, interchangeable leather strap is included in the special presentation box. Designed for comfort as well as accuracy, this is a super stylish Supersport Chrono perfect for fans of the famous Italian cycling tour.

DESIGNER'S WORD

"Nothing says Giro d'Italia like the iconic Maglia Rosa, which celebrates its 90th birthday this year. We're celebrating in style with the Tissot Supersport Chrono Giro d'Italia 2021 which has details in the famous pink of the winner's jersey. With the Giro d'Italia logo engraved on the case back, this is a fitting tribute to our partnership with a legendary cycling tour."

ADDITIONAL STRAP

**THE TISSOT SUPERSPORT CHRONO VUELTA IS A MUST-HAVE
FOR ALL CYCLING FANS!**

At 45.5 mm, the Tissot Supersport Chrono Vuelta is as impressive as the historic race itself. Red is the dominant colour of the race staged in Spain across 21 days in late summer, with a red jersey presented to the winner of the time category. The quality, Swiss-made quartz chronograph movement and tachymeter bezel are perfect for measuring performance and the engraved case back with the Vuelta logo is a reminder of what's at stake. Interchangeable straps in leather and durable bi-material with contrasting details ensure comfort and style and are presented in a special box that will appeal to cycling fans and collectors alike.

DESIGNER'S WORD

"Dedicated to our partnership with the famous Vuelta d'Espana, this is a special edition Supersport created for those who love life on the open road. With details that will resonate immediately with the tour's fans, this is a powerful piece dedicated to a sport close to our heart."

TISSOT PRX 40 205 AUTOMATIC

REMARKABLE
SLIM
EVOCATIVE
ESSENTIAL

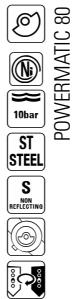

AN UNCOMPROMISING ESSENTIAL POWERED BY AN AUTOMATIC MOVEMENT

The PRX 40 205 may be slim, but it's a real powerhouse thanks to the Powermatic 80 automatic movement. With up to 80 hours of power reserve, you can take your watch off Friday evening and put it back on Monday morning and it is still working with no need to reset or wind. It's a detail for those who like their free time to be truly free.

DESIGNER'S WORD

"Taking inspiration from a popular piece from the Tissot archives, the PRX 40 205 Automatic is a remarkable timepiece created for those with a passion for design and an eye for ingenuity. Based on a watch from our 1978 collection, P stands for precise, R for robust and X references the superior up to 10 bar water resistance of this super slim timepiece. The 40 205 comes from the catalogue reference number of the original model."

ESSENTIAL

AN UNCOMPROMISING ESSENTIAL WITH A QUALITY, SWISS-MADE QUARTZ MOVEMENT

Slim, light, evocative and eye-catching. The PRX 40 205 is a timepiece that benefits from Tissot's innovation and watchmaking heritage. Combining the very best of our illustrious past and design-led present, the PRX 40 205 quartz is an essential addition to your growing watch collection. At 40 mm and offering 10 bar (100m/330ft) of water resistance as well as sapphire crystal and a quality quartz movement with date display, this watch is a must-have for any serious collector.

DESIGNER'S WORD

"Taking inspiration from a popular piece from the Tissot archives, the PRX 40 205 Quartz is a remarkable timepiece created for those with a passion for design and an eye for ingenuity. Based on a watch from our 1978 collection, P stands for precise, R for robust and X references the superior up to 10 bar water resistance of this super slim timepiece. The 40 205 comes from the catalogue reference number of the original model."

TISSOT BALLADE AUTOMATIC

CERTIFIED
CHRONOMETER
80 HOURS OF
POWER RESERVE
FINE WATCHMAKING
DETAILS
INNOVATION AND TRADITION

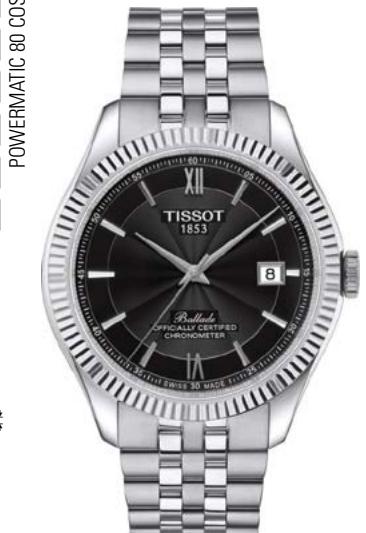

FINE WATCHMAKING AND AN INNOVATIVE PRECISION MOVEMENT COMBINE FOR A SYMPHONY OF STYLE

The Powermatic 80 COSC automatic movement with silicon balance spring and 80-hour power reserve is the most advanced movement in our collection. Silicon is non-magnetic and has better temperature and shock resistance than many conventional materials. Certified by COSC, the movement guarantees accuracy to within -4/+6 seconds per day. A fluted bezel, central guilloché dial and Roman numerals add a touch of fine watchmaking to this compact chronometer. It's a watch that will appeal to many for its combination of classic good looks and state-of-the-art technology.

DESIGNER'S WORD

"We went back to the Tissot archive for inspiration for this sophisticated watch that is a certified precision chronometer. Traditional details taken from fine watchmaking house a movement that uses the very latest technology. We've gone back to the roots of the original Tissot Ballade from the 1990s and integrated some of the original design identity, including the fluted bezel. This is what Tissot is all about."

LUXURY DETAILS

A TECHNICAL TRIUMPH PROUD TO REVEAL ITS INNERMOST SECRETS

The exclusive mechanical skeleton movement is proudly displayed through both the front and back of the case. With its minute cogs and intricate mechanism clearly on show, this is a watch that will develop a close bond with its wearer. Blued, skeletonised hands with luminescent inlay add a touch of luxury and practicality, ensuring this watch serves its purpose as a practical timepiece as well as an intricate eye-catcher. At 43 mm it's a size that lends itself to any wrist and a glossy, printed leather strap guarantees wearer comfort as well as style.

DESIGNER'S WORD

"Luxurious finishes and design details link tradition with contemporary styling for wearers who love to see the watchmaking connection between yesterday, today and tomorrow."

TISSOT CHEMIN DES TOURELLES AUTOMATIC

REFINED
LUXURIOUS
SOPHISTICATED
INTRICATE

A Refined and Sophisticated Watchmaking Masterpiece That Is True to Our Roots

With the Chemin des Tourelles, you'll have a watch you'll want to wear every day. With the Powermatic 80 automatic movement at the heart of this collection, you'll also have a watch you can take off Friday evening and put it back on Monday morning and it is still working with no need to reset or wind. Sophisticated features and intricate details add to the refined and luxurious look and feel of this key collection.

DESIGNER'S WORD

"Tradition meets innovation in these refined and sophisticated watches. The extensive range offers a choice of dials and details that perfectly combine traditional elements with more modern designs and proportions. It's the ideal choice for those with an eye for fine detail."

TISSOT LE LOCLE AUTOMATIC

T-CLASSIC

ICONIC
TRADITIONAL
CRAFTSMANSHIP
AUTHENTIC

THE CLASSIC TISSOT WATCH IS A TRUE REFLECTION OF WHO WE ARE.

The Le Locle Automatic is a range as broad as it is beautiful. PVD coating provides a selection of colours including steel, yellow gold and rose gold colours. Dial designs include some of the watch industry's most iconic features and the collection offers a choice of details including Clous de Paris, Roman numerals and indexes and even Top Wesselton diamonds. The see-through case back is engraved with a traditional Le Locle signature as an additional measure of authenticity. It's a reminder of our long and illustrious history of watchmaking tradition.

DESIGNER'S WORD

"Le Locle is the name of Tissot's hometown, which is the heart of the watchmaking industry. Tradition and craftsmanship underlie this collection. We've explored a range of details to represent modern expectations and ensure this collection moves with the times.

They're an authentic expression of Tissot signature style."

TISSOT GENTLEMAN AUTOMATIC

UNDERSTATED
CLEAN LINES
VERSATILE
CONTEMPORARY

A CONSIDERED CHOICE IN CONTEMPORARY WATCHMAKING WITH A TRULY MODERN MOVEMENT

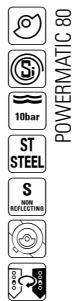

The understated exterior of the Gentleman collection hides the innovation at the heart of the automatic range. The Powermatic 80 movement is even more precise thanks to its silicon balance spring that offers additional resistance to the magnetic fields we encounter in everyday life. With 80 hours of power reserve, it's a movement that can keep pace with busy lifestyles. These Gentleman models are truly an impressive offering.

DESIGNER'S WORD

"When we designed this watch, we were considering the needs of modern watch wearers with straightforward style.

Inspired by a Tissot timepiece from the 1960s, the clean lines and understated aesthetic ensure this is a versatile option for everyday wear."

A RADIANT EXPRESSION OF FRESH, MODERN STYLE WITH AN AUTOMATIC MOVEMENT

Radiant, fascinating and chic. The Tissot T-My Lady can be considered the feminine counterpart of the Tissot Gentleman, conveying all the attributes of quality watchmaking that is guaranteed with a Tissot timepiece. Its Powermatic 48 automatic movement is regulated by a Nivachron balance spring which has exceptional anti-magnetic properties, ensuring precision as well as reliability.

DESIGNER'S WORD

"For women looking for a fresh, modern take on a traditional timepiece, we created the T-My Lady with an automatic movement. It's intended to be a trustworthy companion that reflects the modern, busy day-to-evening lifestyle."

STANDOUT STYLE

CLASSIC LINES, FINE DETAILS AND WITH AN EYE FOR STANDOUT STYLE

The C01 automatic chronograph movement is the substance behind the outer style of the Tissot Couturier collection. Featuring hours, minutes, a small second counter and a date display in addition to its stopwatch function, it's a powerhouse of a movement that drives a subtle, classic piece. An opening in the case back offers a view of some of the movement's key elements. It's the automatic choice for fashion aficionados and those with discerning tastes.

DESIGNER'S WORD

"Just like the creations of the world's greatest fashion designers, the Tissot Couturier timepieces blend classic lines with contemporary watchmaking materials. This automatic chronograph is designed to be a practical timepiece that will match any outfit."

TISSOT COUTURIER QUARTZ

SMOOTH
CLASSIC LINES
FINE DETAILS
STANDOUT STYLE

CLASSIC LINES, FINE DETAILS AND WITH AN EYE FOR STANDOUT STYLE

A quality quartz movement is the substance behind the outer style of this Tissot Couturier collection. Featuring hours, minutes and a small second counter, the dauphine hands call to mind the designer's scissors. In addition to the stopwatch function is a date display. This is an action-packed piece in an understated, 41 mm case. 10 bar (100m/330ft) water resistance and sapphire crystal are additional practical features of this watch with classic good looks. For fashion aficionados and those with discerning tastes the choice of quality leather straps or metal bracelet is one that will make all the difference to the final look.

DESIGNER'S WORD

"Just like the creations of the world's greatest fashion designers, the Tissot Couturier timepieces blend classic lines with contemporary watchmaking materials. This chronograph is designed to be a practical timepiece that will match any outfit."

**PREMIUM, PURE AND FILLED WITH CHARM, THE
CARSON PREMIUM WAS MADE FOR THOSE WHO
APPRECIATE THE FINER THINGS IN LIFE**

Dashing and debonair, the Carson Premium Automatic collection benefits from a quality Swiss-made automatic movement. The see-through case back shows the waves of time decoration on the movement. The dial is specially designed to put the Tissot name front and centre and to take nothing away from the function of telling the time. The result is a charming watch to take you from day to evening in style.

DESIGNER'S WORD

"The Carson Premium family is part of our Classic range. It offers the quality you expect from Tissot with the dashing design you're looking for. The dial design gives a feeling of depth and a true sense of time."

DESIGNED TO SUIT ANY TIME AND PLACE

Retaining its dashing, debonair appeal, the Carson Premium quartz collection offers modern functionality without detracting from the charm of the piece. It guarantees accuracy as well as supreme Tissot style. Designed for those who appreciate the finer things in life, the collection offers a choice of leather strap or metal bracelet.

DESIGNER'S WORD

"The design is pure and classic, the appearance is one of quality and characterful style."

STRIKING
EASY TO WEAR
ADAPTABLE
STUNNING

**FASHION AND FUNCTION COMBINE FOR A STRIKING
STYLE STATEMENT THAT HAS IT ALL**

Adaptable, accurate and easy to wear, the PR 100 offers truly outstanding adaptability and proves you can have it all – in one watch! It's a practical piece ready for anything. Some of the models have PVD coating providing black, anthracite, rose- and yellow-gold coloured finishes. Other models feature delicate mother-of-pearl dials and Top Wesselton diamonds that offer unrivalled shine. Perfect for people of style and substance, the PR 100 has a striking look and feel that make it one of our most popular collections.

DESIGNER'S WORD

"The name PR 100 stands for precise, robust and water-resistant to 100m. It's a perfect name for a functional watch with a strong personality.

The character that has made it one of our bestselling collections since its launch is supported with striking finishes and unusual details such as the Milanese bracelet. Perfect for every occasion!"

TISSOT TRADITION AUTOMATIC

SLEEK
SIMPLE
GENUINE
STRAIGHTFORWARD

A TRUE EXPRESSION OF TISSOT TRADITION WITH A UNIQUE OPEN HEART DIAL

The beauty of the Powermatic 80 movement with its awesome 80-hour power reserve is revealed by the opening at 12 o'clock on the dial as well as through the transparent case back. The dials feature a subtle grain d'orge pattern in the centre and a smooth outer dial ring housing simple indexes and an oversized XII. Sapphire crystal ensures scratch-resistant protection for the dial and a selection of textured leather straps and metal bracelets completes the highly desirable look.

DESIGNER'S WORD

"The Tissot Tradition Automatic combines sleek, simple, and straightforward design and state-of-the-art technology. A range of dials and a choice of design accents makes this a watch as versatile as it is powerful."

The curved, 1950s-style case adds a hint of retro style."

STRAIGHTFORWARD

A TRUE EXPRESSION OF TISSOT TRADITION

A slim case doesn't mean we've compromised on style – or on design. Whether you prefer a dark or light dial, a leather strap or a metal bracelet, you'll find the honest impact you're looking to make with the Tissot Tradition Quartz collection. The watch expresses purity of design and is easy to read without being imposing. This is a watch collection that is sure to have many fans.

DESIGNER'S WORD

"Light, slim and the perfect choice to fit under a shirt sleeve or a jacket cuff. That's how we imagined these new versions of the Tissot Tradition. It's the slimmer proportions that makes this a watch for all seasons and guarantees comfort with every outfit. We've designed this collection for ultimate wearability."

TISSOT CLASSIC DREAM AUTOMATIC

T-CLASSIC

ALL-ROUNDER
MINIMALISTIC
LASTING
APPEALING

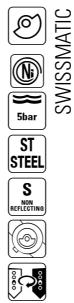

A CONSTANT COMPANION WITH CLASSIC
GOOD LOOKS AND A GROUNDBREAKING
AUTOMATIC MOVEMENT

Powered by the movements of the wearer and with a power reserve that lasts up to three days, the Swissmatic movement is the beating heart of this Classic Dream. This automatic winding movement is regulated by a Nivachron balance spring with exceptional magnetic resistance for extra accuracy.

DESIGNER'S WORD

"The Tissot Classic Dream is an aptly named all-rounder that we've designed specially to have long-lasting appeal. Ideal for everyday wear, it has all the essential functions you need and the Tissot quality you expect in a 42 mm case."

TISSOT EVERYTIME AUTOMATIC

COOL
MINIMALISTIC
UNDERSTATED
WATCHMAKING
STATEMENT SWISS
QUALITY

WITH THIS TISSOT AUTOMATIC TIMEPIECE, EVERY TIME IS YOUR TIME

The watch is enhanced by a Swissmatic movement, offering up to three days of power reserve. Designed to be worn every day, wherever you are, at 40 mm, the Everytime is the perfect choice for those who want more from a watch. With a see-through case back offering a glimpse of the modern movement and a choice of case and dial colour combinations, the Everytime offers everything you want in your Tissot.

DESIGNER'S WORD

"We've chosen the cool, minimalistic backdrop of the Everytime collection to reflect the ultimate in Swiss understated watchmaking style and we've added the Swissmatic movement as the ultimate statement of Swiss watchmaking quality."

DESIGNED FOR
EVERYDAY WEAR

WITH THIS TISSOT TIMEPIECE, EVERY TIME IS YOUR TIME

Everytime is the perfect choice for those who want more from a watch. With a quality Swiss-made movement, a choice of case and dial colour combinations, and the wide selection of strap and bracelet options, it's the best of Tissot to express what time means to you.

DESIGNER'S WORD

"The Tissot Everytime collection now offers a range of options to suit the preferences of modern wearers. The collection reflects the ultimate in Swiss understated watchmaking chic. A selection of vintage-inspired stainless steel bracelets and smooth crocodile print leather straps make Everytime a perfect model to experiment with your look."

TISSOT BELLISSIMA

BEAUTIFUL
DELICATE
ROMANTIC
DIVINE

**STAND OUT IN STYLE WITH AN ETERNAL BEAUTY
MADE FOR MAGIC MOMENTS AND SPECIAL OCCASIONS**

Bellissima is the latest addition to our growing selection of watches for ladies. With a focus on finding the perfect complement of delicate but daring design and the latest in watchmaking technology, Bellissima is a beautiful study in modern style. Its petite proportions hold a range of important features including 5 bar water resistance, a choice of case, dial and bracelet combinations and a practical date display at 6 o'clock.

DESIGNER'S WORD

"At Tissot, we're proud to present Bellissima, a dressy evening watch that will make a special occasion out of everyday events. This small, delicate, romantic timepiece is available in a number of versions and, at a petite 26 mm, it is guaranteed to shine without stealing the spotlight. It's a real gem!"

TISSOT ODACI-T

AUDACIOUS
ASYMMETRIC
SPARKLING
DARING

AN AUDACIOUS PIECE FOR BOLD AND BUBBLY WEARERS

There are no half measures when it comes to a watch designed for those who are making the most of what life has to offer. The dial may be asymmetric but there is balance in the Odaci-T between its subtle, luxurious dial, sleek case and matt and pearlescent leather straps. Diamonds and mother-of-pearl offer a hint of natural shine and glamour and you can change your strap to suit your mood as each watch is presented with an alternative option. As always at Tissot, functionality is top of mind and we've included a practical date display with our choice of quality quartz movement.

DESIGNER'S WORD

"We designed the Odaci-T for daring individuals ready to make their mark. An important addition to our growing ladies' collection, this is a sparkling demonstration of what you can achieve when there are no limits. Bold design in a 33 mm case and presented in daring new colours, it is guaranteed to find those it's designed for."

TISSOT T-WAVE

GENTLY
CURVED
GLAMOROUS
HARMONIOUS

FLUID LINES MEET GENTLE CURVES FOR A HARMONIOUS LOOK AND FEEL

Mother-of-pearl dials and diamonds are two of the luxurious elements that bring ultimate glamour to the T-Wave. Undulating, fluid lines and balanced proportions in a range of colours offer the T-Wave either a warm or cool aesthetic. Inspired by the movements of a ribbon, it's a key collection in our offering of modern, ladies' watches and one that we're proud to call a Tissot.

DESIGNER'S WORD

"We created this collection for women looking for glamour and finesse in one watch."

TISSOT FLAMINGO

MOP

SUBTLE
ENDURING
GRACEFUL
EXQUISITE

A SUBTLE PIECE OF EVERYDAY JEWELLERY

The very slight asymmetric design of the horns brings a fluidity to the case and bracelet that offers a comfortable fit on the wrist as well as an interesting look. An essential for every wardrobe, exquisite dials meet graceful straps for an enduring piece that you'll want to wear forever. With a date display at 6 o'clock, quality Swiss-made quartz movement, and sapphire crystal to protect the beautiful dial, it's a watch with enduring appeal.

DESIGNER'S WORD

"Designed to remind you that time is precious, the Tissot Flamingo is subtle and graceful. Named after the elegant bird, it's one of the key pieces in our growing ladies' collection."

TISSOT LOVELY

T-LADY

LOVELY
PETITE
MINI
IRRESISTIBLE

SIXTIES STYLE IN A PERFECT, PETITE PACKAGE

With the option to wear as a jewellery piece in its own right or paired with other accessories, this is a versatile collection inspired by Tissot watches from the 1960s. The stainless-steel Lovely comes in a range of cool or warm shades thanks to PVD treatment and is presented on a soft leather strap, a multi-link metal bracelet or with the luxurious knit of a Milanese bracelet. Dials with diamonds bring additional shine and those without offer a subtle approach to telling the time. The final result is one of unrivalled shine.

DESIGNER'S WORD

"Customers looking for an accessory to complement their subtle style will find everything they're looking for with the Lovely collection. Small watches are back in style and we designed this one to be worn like jewellery as a key piece on its own or in a more casual way layered with bracelets."

TISSOT HERITAGE

A RICH HISTORY SPANNING MORE THAN 160 YEARS PROVIDES A WEALTH OF INSPIRATION.

The Tissot Heritage collection pays homage to the rich history of Tissot, founded in 1853 in Le Locle, Switzerland, by revisiting some models that testify to the exceptional know-how of its watchmakers.

The Tissot Heritage collection tells stories of the past in a contemporary style, appealing both to modern tastes as well as fascinated collectors.

TISSOT HERITAGE MEMPHIS

VIVID
GEOMETRIC
UNCONVENTIONAL
BRIGHT

A THRILLING THROWBACK TO A POP CULTURE PHENOMENON

A limited series of four models is the heart of this new collection, each of which is presented with an additional interchangeable textile strap. Sapphire crystal ensures the instantly recognisable dial is well-protected and a case back engraving includes a reminder of the 5-bar water resistance. The two gents' and two ladies' models are produced in limited editions of 3,000, 2,500 and 1,700 pieces respectively and are guaranteed to attract an army of followers, just like the Memphis design movement in its day.

DESIGNER'S WORD

"The Memphis design movement is, for many, the epitome of '80s style. Bright, bold, avant-garde and fun, its creator Ettore Sottsass worked with Tissot to bring the same look to a watch. Forty years later, we're bringing back the Heritage Memphis Limited Edition, a vivid, bold and unconventional collection with vivid new accents. Perfect for those not afraid to show their true colours."

TISSOT HERITAGE 1973

RE-EDITION
PIECE OF
HISTORY
AVANT-GARDE
RACING PEDIGREE

A CLASSIC REMINDER OF A GOLDEN AGE IN SPORTS WATCHES

A classic chronograph is a key piece in any watch collection. The authentic look and feel of the Heritage 1973 celebrates Tissot's motor sports pedigree as well as offering a range of vintage design features including a panda or reverse panda dial. An intricate tachymeter scale is a nod to the technical aspect of racing while the perforated leather strap recalls the racing wheel on classic racing cars. The quality Swiss-made Valjoux A05 automatic movement with up to 60 hours of power reserve is the perfect engine for this sporty package.

DESIGNER'S WORD

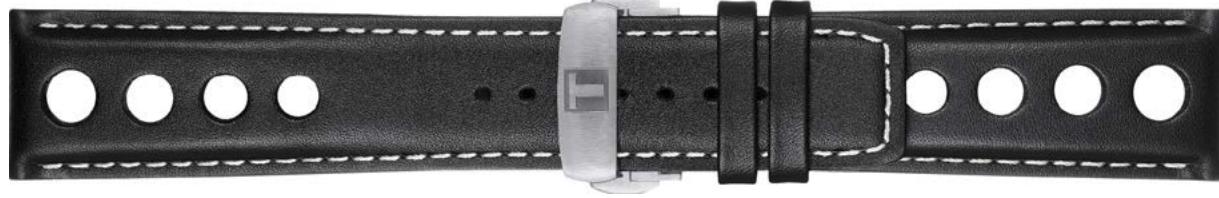

"This unique chronograph has found its niche among cool customers with a taste for the historical. When we created the Heritage 1973, it was based on an original model from 1973. Dedicated to a golden age when every watch company had a key sports watch in its collection, this is a piece whose design links our past and present seamlessly."

UNIQUE
DISTINCTIVE
18K GOLD

**AN ORIGINAL DESIGN FROM 1916 RECALLS A GOLDEN AGE
MORE THAN 100 YEARS LATER**

At 49 mm in length, the 18k gold case of the Heritage Prince I is suited to a larger wrist. The gentle curve offers wearer comfort, and the mechanical movement creates a close bond between the watch and its owner. The soft crocodile pattern leather strap in rich brown is a perfect complement to the warm yellow gold case.

DESIGNER'S WORD

"Distinctive Art Nouveau style is the standout design feature of this elongated watch. The case is curved to ensure a comfortable fit on the wrist. It's one of a kind."

ART NOUVEAU
CAPTIVATING
DREAMLIKE
CULT DESIGN

A CULT, CAPTIVATING PIECE THAT IS AN IMPORTANT PART OF OUR DESIGN HERITAGE

Art-Nouveau style numerals are just one of the standout features of this watch which was inspired by a model from the 1910s. Making several appearances in our extensive archive, it's one of the models that underlines our illustrious watchmaking heritage. As innovators by tradition, Tissot has always pushed the envelope of design and functionality and this barrel-shaped timepiece is up there with the best. The handwinding movement ensures a close connection between the watch and its owner.

DESIGNER'S WORD

"The truly iconic design of this Heritage model is Tissot through and through. The tonneau case creates a comfortable fit on the wrist and the dreamlike numerals are protected under domed sapphire crystal. This is a watch grounded in Tissot history that has a story to tell. Its distinctive name references a previous Tissot limited edition honouring the Portuguese city of Porto which was European city of culture in 2001."

TISSOT HERITAGE PORTO QUARTZ

ART NOUVEAU
CAPTIVATING
DREAMLIKE
CULT DESIGN

**AN INNOVATIVE DESIGN FROM THE 1910S THAT
ENDURES TODAY**

With its cult status and captivating Art-Nouveau features, this is the Tissot watch that has inspired many wearers since it was first introduced to the collection. This latest range perfectly captures the spirit of the original, offering additional details that create both depth and intrigue including jewel-coloured elements for the smaller models. Perfectly formed to fit the wrist of the wearer, the tonneau case is a distinctive feature of a famously fabulous watch.

DESIGNER'S WORD

"Standing out from the crowd is easily achieved with this cult bestseller that hails from the early twentieth century. Perfectly proportioned, this tasteful, tonneau-shaped timepiece has a very distinct twist. It's a favourite among those who see things a little bit differently. Its distinctive name references a previous Tissot limited edition honouring the Portuguese city of Porto which was European city of culture in 2001."

TISSOT PENDANT 1878 160TH ANNIVERSARY

18K
750
DIAMOND

18K GOLD
JEWELLED CASE
HISTORIC DESIGN
LIMITED EDITION

AN OPULENT HISTORICAL BEAUTY

When co-founder Charles-Émile Tissot travelled to Russia to broaden Tissot's horizons in 1858, he found a market for the brand's watches. The Tissot Pendant 1878 was sold in Russia and is revived in a limited edition of just 160 individually numbered pieces in celebration of our 160th anniversary. Crafted in 18k gold and with seven diamonds on the case, it is a sophisticated pendant watch with exquisite detailing and, of course, a quality Swiss-made mechanical movement at its heart.

DESIGNER'S WORD

"This watch has everything, including a story to tell. It is the same design as a watch sold by Tissot in Russia in 1878. With its double opening, beautiful engraving and jewel-set outer case, it is a piece of history that offers enduring style."

TISSOT HERITAGE VISODATE AUTOMATIC

MID-CENTURY
MODERN
RETRO
NOSTALGIC
BRIDGE BETWEEN PAST
AND PRESENT

**INSPIRED BY A COLLECTION FROM THE 1950S, REVIVED FOR
TWENTY-FIRST CENTURY WEARERS**

A handsome 42 mm stainless steel case is the perfect housing for this Mid-Century Modern watch. Open, clear dials ensure a clear view of the time and the day date display at 3 o'clock. A choice of quality leather strap or Milanese bracelet make for a nostalgic but stylish statement that is completely at home in the twenty-first century. Sapphire crystal ensures long-lasting scratch resistance for a watch that will look just as good in years to come as it does today. The gently-curved dial mirrors the domed sapphire glass.

DESIGNER'S WORD

"We've brought together the very best of Tissot past and watchmaking technology present for the Visodate collection. With the 1950s Tissot logo on the dial and the Powermatic 80 automatic movement with Nivachron balance spring on the inside, the Visodate really is the best of both worlds."

MID-CENTURY
MODERN
RETRO
NOSTALGIC
BRIDGE BETWEEN PAST
AND PRESENT

INSPIRED BY A COLLECTION FROM THE 1950S, UPDATED FOR TWENTY-FIRST CENTURY WEARERS WITH A MODERN MOVEMENT

Inspired by the Visodate collection from 1954, this contemporary take on a mid-century original will appeal to those looking for a bridge between past and present. Practicality comes in the form of the reliable quartz movement, while the dial ensures all eyes are on the date display that gives this collection its name. With faceted hands and indexes, attention has been paid to every single detail. A choice of quality leather strap or Milanese bracelet make for a nostalgic and stylish statement that is completely at home in the twenty-first century.

DESIGNER'S WORD

"A gently curved dial mirrors the domed sapphire glass, both designed to showcase the clearly visible date. Historical Tissot logos on the dial, case back, crown and buckle are a bridge between the past and present and are a piece of authentic Tissot heritage."

TISSOT GENTLEMAN AUTOMATIC

CLEAN LINES
VERSATILE
CONTEMPORARY
18K GOLD ELEMENTS

A CONSIDERED CHOICE IN CONTEMPORARY WATCHMAKING WITH GOLD ELEMENTS AND A TRULY MODERN MOVEMENT

The understated exterior of these models in the Gentleman collection is enhanced by rose and yellow gold bezels. While the materials are traditional, the innovation is at the heart of this automatic range. The Powermatic 80 movement is even more precise thanks to its silicon balance spring that offers additional resistance to the magnetic fields we encounter in everyday life. With 80 hours of power reserve, it's a movement that can keep pace with your busy life. Sapphire crystal and a selection of carefully chosen leather straps and metal bracelets round off the impressive offering of these Gentleman models.

DESIGNER'S WORD

"When we designed this watch, we were considering the needs of modern watch wearers with straightforward style. Inspired by a Tissot timepiece from the 1960s, the clean lines and understated aesthetic ensure this is a versatile option for everyday wear. These specially designed models include 18 carat rose or yellow gold bezels with hands, indexes and date windows in exactly the same colour offering impressive warmth and traditional shine in a contemporary timepiece."

TISSOT T-MY LADY

RADIANT
FASCINATING
CHIC
GLITTERING

A RADIANT EXPRESSION OF FRESH, MODERN STYLE WITH AN AUTOMATIC MOVEMENT AND GOLD BEZEL

Radiant, fascinating and chic. The Tissot T-My Lady can be considered the feminine counterpart of the Tissot Gentleman, conveying all the attributes of quality watchmaking that is guaranteed with a Tissot timepiece. Its Powermatic 48 automatic movement is regulated by a Nivachron balance spring which has exceptional anti-magnetic properties, ensuring precision as well as reliability. The 18k gold bezel brings a touch of additional warmth to a fresh, modern watch.

DESIGNER'S WORD

"For women looking for a fresh, modern take on a traditional timepiece, we created the T-My Lady with an automatic movement. It's intended to be a trustworthy companion that reflects the modern, busy day-to-evening lifestyle. Gold adds a touch of glamour."

GRACEFUL
LUXURIOUS
SOLID GOLD BEZEL
SWISS QUALITY QUARTZ
MOVEMENT

CHIC, SIMPLE AND TOPPED WITH GOLD

Designed with luxury in mind, the 33 mm stainless steel Glendora is the perfect foil for the large gold bezel that makes it such a modern beauty. With a quality Swiss-made quartz movement inside and a range of dials – with and without diamonds – to choose from, each Glendora also comes with either a soft leather strap or a comfortable steel bracelet.

DESIGNER'S WORD

"We designed the Glendora as a jewellery watch, ensuring that the quality inside and outside is evenly balanced. The distinctive 18 K gold bezel on the Glendora is a simple statement full of feminine charm."

WEARER

DESIGNER'S WORD

"Simple, discreet, and made of 18k gold. These contrasting ideas were the inspiration for the Excellence Gold collection which shines in its simplicity and its materials.

These models include an automatic movement, which is powered by the wearer's movements."

EXCELLENCE IN NAME – AND IN APPEARANCE

The case of the Excellence is notable for its slimness as well as its pared-down aesthetic. The see-through case back offers a view of the slim, decorated ETA 2892 movement. Dials with indexes or Roman numerals and with light or dark backgrounds ensure there is something to suit all tastes. Excellent.

**INDEPENDENT, UPSTANDING, AND MADE FOR THOSE
LOOKING TO WEAR TIME DIFFERENTLY**

With the option to wear the watch on its chain or set it down on a desk or side table, this is a timepiece guaranteed to make an impression. If you like to look to the past for inspiration for the future, this is a watch with long-lasting allure.

DESIGNER'S WORD

"The dial of the T-Pocket Stand Alone was inspired by 18th century designs. Presented with rose gold or palladium plating, it is powered by a quartz movement, seamlessly uniting watchmaking tradition and modernity."

MODERN FEEL

THE TISSOT BRIDGEPORT MECHANICAL SKELETON REFERENCES THE PAST BUT IS STRIKINGLY MODERN

A double opening at the front and back makes it easy to check the time while admiring the impressive hand-wound mechanical movement. Presented in stainless steel or stainless steel with rose gold coloured PVD coating, this is a piece of Tissot heritage with a modern feel.

DESIGNER'S WORD

"We designed this watch so that owners can enjoy a fantastic watch that proudly displays a beautiful movement."

TISSOT BRIDGEPORT LEPINE MECHANICAL

SOPHISTICATED
DETAILED
LUXURIOUS
REPRESENTS TISSOT
HERITAGE

A RETRO LEPINE WHICH LOOKS BACK TO TISSOT'S WATCHMAKING PAST

Winding the movement of this 45 mm masterpiece by hand puts you in instant contact with a world of Tissot watchmaking heritage. Such a close connection is common with a watch that is worn differently. Fasten the chain to a waistcoat, buttonhole or belt loop and you've got a unique piece that expresses what time means to you. Choose from a steel version with anthracite dial detail, crown and case or the rose gold coloured version with white dial.

DESIGNER'S WORD

"A decorated dial, small second counter at 6 o'clock, and blued hands make this pocket watch the perfect gift for lovers of fine design. The crown, which was inspired by the cap of a perfume bottle, is the finishing touch for this luxurious Lepine."

WE'VE GOT EXPERT TIMEKEEPING DOWN TO A T

For those looking for a perfect addition to their home office or statement sideboard, the T-Clock has a unique look and feel. A constant reminder that time is on your side, while away the hours, count down the minutes or take a moment to yourself as you admire the craftsmanship of the movement.

DESIGNER'S WORD

"We designed this statement clock to showcase the beauty and complexity of a traditional mechanical movement in an avant-garde design. Protected by a delicate glass cloche, the clock is wound by hand."

A MECHANICAL MASTERPIECE PERFECT FOR THE POCKET

A range of ornate heritage designs drawn from past incarnations of the Tissot brand feature on these pocket watches that are made with the very latest craftsmanship and know-how. Mechanical movements ensure a close connection between watch and wearer and the traditional details are visible everywhere – from case to movement to delicately crafted dial. The Savonnette is a perfect watch for those looking to wear time differently.

DESIGNER'S WORD

"Staying faithful to tradition, these pocket watches stand out with their design inspired by the 19th century. This is the perfect watch for someone looking for a unique, historical timepiece that celebrates traditional Swiss craftsmanship."

A MODERN MASTERPIECE PERFECT FOR THE POCKET

This watch will please those looking for the uniqueness of a pocket watch with the durability of a stainless steel case and the option to combine warm yellow and rose gold coloured accents with classic ornate Tissot designs. Roman numerals and a date display complete the classic package.

DESIGNER'S WORD

"Pocket watches have always been part of Tissot's DNA and we are proud to continue this tradition even as we offer a version that combines traditional design with the technology of a quartz movement."

TISSOT LEPINE QUARTZ

COMPACT
LIGHT
VERSATILE
FASHION-FORWARD

A POCKET WATCH MADE FOR MODERN WEARERS

Compact, light, and full of personality, the Lepine Quartz is just as at home in the pocket of your jeans as it would be on a traditional waistcoat. Some follow trends, others invent. If you're a fashion aficionado looking for the next big thing, this quartz-powered watch could be just what you've been waiting for.

DESIGNER'S WORD

"Pocket watches have made a comeback among the fashion-forward the world over. While some favour a traditional design, others are looking for the next word in time as an accessory. For them, we have created the Lepine Quartz."

TISSOT INFIRMIÈRES

ICONIC
PRACTICAL
ESSENTIAL

AN ICONIC TISSOT TIMEPIECE SINCE 1969

A quality Swiss-made quartz movement ensures both lightness and accuracy – essentials for a busy healthcare professional. A range of finishes offers variety and an opportunity to express your personal style – even if you wear a uniform. Practical features include a date display, luminescent hands, and a red scale to help make taking a patient's pulse easier.

DESIGNER'S WORD

"Since 1969, Tissot has been making watches especially for nurses. A practical way to display the time also offers a unique way to wear it. We're proud to be one of the last Swiss brands still producing these important timepieces."
